Collection of articles celebrating the 150th anniversary of Fechner's book on Psychophysics (originally published ten years after his epiphany of Oct. 22, 1850).

**Articles from the Fechner collection, guest-edited by J. Solomon:**

**Fechner's Law: Where Does the Log Transform Come From?**  
pp. 155-171(17)  
**Author:** Laming, Donald

**Measuring Perceptual Hysteresis with the Modified Method of Limits: Dynamics at the Threshold**  
pp. 173-195(23)  
**Authors:** Hock, Howard S.; Schöner, Gregor

**Fechner's Aesthetics Revisited**  
pp. 263-271(9)  
**Authors:** Phillips, Flip; Norman, J. Farley; Beers, Amanda M.

**Fechner's Elusive Parallel Law**  
pp. 335-348(14)  
**Authors:** Ross, Helen E.; Wade, Nicholas J.

**Magnitude of Perceived Change in Natural Images May Be Linearly Proportional to Differences in Neuronal Firing Rates**  
pp. 349-372(24)  
**Authors:** Tolhurst, David J.; To, Michelle P.S.; Chirimuuta, Mazviita; Troscianko, Tom; Chua, Pei-Ying; Lovell, P. George
A Criterion Setting Theory of Discrimination Learning that Accounts for Anisotropies and Context Effects
pp. 401-434(34)
Authors: Lages, Martin; Treisman, Michel

Sensory Integration Across Modalities: How Kinaesthesia Integrates with Vision in Visual Orientation Discrimination
pp. 435-462(28)
Authors: Treisman, Michel; Lages, Martin

What Comes Before Psychophysics? The Problem of 'What We Perceive' and the Phenomenological Exploration of New Effects
pp. 463-481(19)
Author: Pinna, Baingio

Functional Adaptive Sequential Testing
pp. 483-515(33)
Authors: Vul, Edward; Bergsma, Jacob; MacLeod, Donald I.A.
