

## Scope

The *IAWA Journal* (*IAWA*) is an international periodical publishing original papers and review articles on any subject related with the microscopic structure of wood and bark of stems and roots of woody plants (including palms and bamboo). Apart from anatomy *per se*, subjects at the interface of microstructure and developmental genetics, systematics, palaeobotany, archaeology, tree biology, forestry, structure-property relations of timber, biomechanics, wood identification, etc. are welcomed.

## Ethical and Legal Conditions

Please note that submission of an article for publication in any of Brill's journals implies that you have read and agreed to Brill's Ethical and Legal Conditions. The Ethical and Legal Conditions can be found here: [brill.com/downloads/conditions.pdf](http://brill.com/downloads/conditions.pdf).

## Online Submission

*IAWA* now uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: [editorialmanager.com/iawa](http://editorialmanager.com/iawa). First-time users of EM need to register first. Go to the website and click on the "Register Now" link in the login menu. Enter the information requested.

When you register, select e-mail as your preferred method of contact. Upon successful registration, you will receive an e-mail message containing your Username and Password. If you should forget your Username and Password, click on the "Send Username/Password" link in the login section, and enter your first name, last name and email address exactly as you had entered it when you registered. Your access codes will then be e-mailed to you.

Prior to submission, authors are encouraged to read the 'Instructions for Authors'. When submitting via the website, you will be guided stepwise through the creation and uploading of the various files.

A revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.

### *File Format*

Manuscript files should be source files as .doc, and not .pdf files. For illustration files a resolution of at least 300 dpi should be used and files should be saved in tiff or jpg format. For graphs or line figures a higher resolution (at least 1000 dpi) should be used.

### *Instructions for Authors*

---

#### *Supplementary Media / Data Files*

To support and enhance your manuscript, *IAWA* accepts electronic supplementary material, including supporting applications, high-resolution images, background datasets, sound or video clips, large appendices, data tables and other items that cannot be included in the article PDF itself. Authors should submit the material in electronic format together with the other manuscript files and supply a concise and descriptive caption for each file. In order to ensure that your submitted material is directly usable, please provide the data in one of the broadly accepted file formats for video, audio, etc. and limit the file size (e.g., for video: max. 3 GB). Supplementary files supplied will be published online at FigShare ([www.figshare.com](http://www.figshare.com)), to which reference is made in the published article on Brill Online Books and Journals, and vice versa.

#### *Contact Address*

For any questions or problems relating to your manuscript please contact of the Editors by e-mail: P. Baas, [Pieter.baas@naturalis.nl](mailto:Pieter.baas@naturalis.nl); E.A. Wheeler, [xylem@ncsu.edu](mailto:xylem@ncsu.edu). For eventual questions about Editorial Manager, authors can also contact the Brill EM Support Department at: [em@brill.com](mailto:em@brill.com).

## **Submission Requirements**

#### *Language*

Manuscripts must be in English. Spelling (British or American) should be consistent throughout.

## **Manuscript Structure**

#### *General*

Please consult recent *IAWA Journal* issues for general lay-out and formatting.

Double-space manuscripts throughout, including tables, figure captions, and literature citations. Leave at least 2.5 cm margin on all sides of the typed pages. Do not use proportional spacing or justified margins.

Authors should start with a concise and informative title, followed by the name(s) and address(es) of the authors.

#### *Abstract*

The abstract should not exceed 300 words.

#### *Keywords*

The summary should be followed by 4--8 keywords that are not in the title, identifying the subject matter.

### *Instructions for Authors*

---

#### *Headings*

Headings and subheadings of the paper (Abstract, Introduction, Materials and Methods, Results, Discussion, Acknowledgements, References) should be clearly indicated.

In special cases deviations from these subdivisions (major headings) are acceptable, and sometimes further subdivisions within main sections are desirable. In very brief communications there is no need for any subdivision.

#### *References*

##### *Text Citation*

Literature citations in the text should be as follows:

*One author:* Smith (1960) or (Smith 1960).

*Two authors:* Smith and Gomez (1990) or (Smith & Gomez 1990).

*Three or more authors:* Smith *et al.* (1990) or (Smith *et al.* 1990).

In this case provide all author names in the reference list.

*Multiple references* when within parentheses (Liu 1977; Smith 1989, 1990).

##### *References*

Citations should conform to the following format:

##### *Books*

Hillis WE. 1987. Heartwood and tree exudates. Springer Verlag, Berlin.

##### *Chapters in Edited Books*

Esau K. 1964. Structure and development of the bark in dicotyledons. In: MH Zimmermann (ed.), The formation of wood in forest trees: 37--50. Academic Press, New York.

##### *Journal Articles*

At the end of journal references, please also insert the DOI number, whenever available.

Bailey, IW & Nast CG. 1945. Morphology and relationships of *Trochodendron* and *Tetracentron*, 1. Stem, root, and leaf. J. Arnold Arbor. 26: 143--154.

Use *italics* in the references for scientific genus and species names.

When the author(s) is/are the same as in the immediate preceding citation(s) write out the name(s) of the author(s), i.e., do not replace author names with a long dash (—).

Use no period(s) between the initial(s) of an author's name; AB Author.

Leave one space between the volume number with colon and page numbers in a journal article. Use double hyphens between page numbers, e.g., IAWA Bull. n.s. 10: 72--81.

### *Instructions for Authors*

---

#### *Figures and Tables*

Cite each figure and table in the text and, as far as possible, cite them in numerical order.

#### *Figures*

Plates should be carefully composed leaving not more than about 1 mm space between the individual photographs. Leave at least 2 cm margins around the grouped photographs. On a printed Journal page the maximum dimensions for a plate are 120 x 190 mm, but authors are advised to allow ample space for figure captions at the bottom of the page.

*Magnifications* should be indicated by scale bars.

#### *Color Photographs*

There is no charge for full color images or figures in either the print or electronic edition.

#### *Figure Captions*

Please consult recent issues of the IAWA Journal. Use 'Fig.' for singular and plural in the general text. For grouped figures in a single plate, begin with a list of figures in that plate and, if appropriate, follow with an inclusive general description of those figures. For instance:

Fig. 1--4. Transverse sections of *Ulmus* species. -- 1: *Ulmus americana*. -- 2: *Ulmus tonkinensis*. -- 3: *Ulmus rubra*. -- Scale bars = 250  $\mu$ m.

Important note: Use two hyphens between individual captions and explanations of scale bars and explanations of symbols used to label the figures.

#### *Page Charges*

At least one of the authors should be a paid-up IAWA member. There are no page charges to authors.

## **Publication**

#### *E-Offprints*

A PDF file of the article will be supplied free of charge by the publisher to authors for personal use. Brill is a RoMEO yellow publisher. The Author retains the right to self-archive the submitted (pre-peer-review) version of the article at any time. The submitted version of an article is the author's version that has not been peer-reviewed, nor had any value added to it by Brill (such as formatting or copy editing). The Author retains the right to self-archive the accepted (peer-reviewed) version after an embargo period of 24 months. The accepted version means the version which has been accepted for publication and contains all revisions made after peer reviewing and copy editing, but has not yet been typeset in the publisher's lay-out. The publisher's lay-out must not be used in any repository or on any website ([brill.com/resources/authors/publishing-books-brill/self-archiving-rights](http://brill.com/resources/authors/publishing-books-brill/self-archiving-rights)).

## Consent to Publish

### *Transfer of Copyright*

By submitting a manuscript, the author agrees that the copyright for the article is transferred to the publisher if and when the article is accepted for publication. For that purpose the author needs to sign the **Consent to Publish** which will be sent with the first proofs of the manuscript.

### *Open Access*

Should the author wish to publish the article in Open Access he/she can choose the Brill Open option. This allows for non-exclusive Open Access publication under a Creative Commons license in exchange for an Article Publication Charge (APC), upon signing a special Brill Open Consent to Publish Form. More information on Brill Open, Brill's Open Access Model and the Brill Open Consent to Publish Form can be found on [brill.com/brillopen](http://brill.com/brillopen).
