BRILL

Index Islamicus is THE international classified bibliography of publications in European languages on all aspects of Islam and the Muslim world from 1906 onwards until present day. Material cited in the *Index Islamicus* includes not only work written about the Middle East, but also about the other main Muslim areas of Asia and Africa, plus Muslim minorities elsewhere

Presently, *Index Islamicus* contains over 475,000 records, covering all the main Muslim areas of Asia and Africa, as well as Muslims living elsewhere, and their history, beliefs, societies, cultures, languages and literatures. It includes material published by Western scholars in the fields of Humanities and Social Sciences, specialist area- and subject-based areas, and by Muslims writing in European languages. Publications recorded are in the form of articles, books and reviews. All essays and papers contained in multi-author volumes are recorded, classified and indexed separately.

The well-known *Index Islamicus* classification scheme, uniquely and carefully geared to the field of Islamic studies, allows one to quickly find all literature headed under a particular, broader subject area (e.g., Education, Philosophy, Shi'ism, Sudan, Palestine, Israel, as well as their subcategories).
